

2010 DANGEROUS GOODS TRAINING COURSES

QUALITY TRAINING

Air Canada Cargo Training is well known and respected across Canada and around the world, for developing and delivering training courses that meet ICAO, IATA and Transport Canada requirements. Our courses are approved by IATA and Transport Canada. Our training programs meet IATA's high quality safety training standards and have been benchmarked against IATA's training validation criteria.

Our qualified and professional instructors employ well-proven learning techniques in our dangerous goods courses. These methods enhance the learning process to make it more interesting and fun for the learner. Therefore, whether you learn best by listening, seeing or hands-on approach, our courses will appeal to you.

We ensure that our instructors have the very best tools and resources to teach the dangerous goods training programs.
