## CO<sub>2</sub> EMISSIONS CALCULATOR FOR FRANCE

In accordance with France's Grenelle Law, Air Canada Cargo is providing CO<sub>2</sub> emissions information for select flights originating from a French airport. The CO<sub>2</sub> emissions information provided by Air Canada Cargo represents an estimate and meant to be used for information purposes only. To obtain the CO<sub>2</sub> emissions for a given route, multiply the weight of the shipment by the CO<sub>2</sub> emission factors provided below.
