

EN18 - Greenhouse Gas Emissions Intensity

	Unit	2013	2012	2011
emissions from jet fuel combustion	kilograms of CO ₂ e	8,943,698,912	9,089,312,041	8,983,722,888
weight of passengers and cargo by distance flown / 100	100 revenue tonne kilometres	99,734,853	98,507,576	95,883,565
GHG emissions intensity	kg of CO ₂ e / 100 RTK	89.6748	92.2702	93.6941

Any discrepancies to previously reported numbers may be due to calculating CO₂e versus CO₂ or more accurate conversion factors
