Air Canada presents at the Canadian Airline & Aerospace Forum hosted by RBC Capital Markets® Montreal – November 13, 2012
Caution Regarding Forward-looking Information

Air Canada’s public communications may include forward-looking statements within the meaning of applicable securities laws. Such statements may be included in this presentation and may be included in other communications, including filings with regulatory authorities and securities regulators. Forward-looking statements may be based on forecasts of future results and estimates of amounts not yet determinable. These statements may involve, but are not limited to, comments relating to strategies, expectations, planned operations or future actions. Forward-looking statements are identified by the use of terms and phrases such as “anticipate”, “believe”, “could”, “estimate”, “expect”, “intend”, “may”, “plan”, “predict”, “project”, “will”, “would”, and similar terms and phrases, including references to assumptions.

Forward-looking statements, by their nature, are based on assumptions and are subject to important risks and uncertainties. Forecasts or forward-looking predictions or statements cannot be relied upon due to, amongst other things, changing external events and general uncertainties of the business. Actual results may differ materially from results indicated in forward-looking statements due to a number of factors, including without limitation, industry, market, credit and economic conditions, the ability to reduce operating costs and secure financing, pension issues, energy prices, currency exchange and interest rates, employee and labour relations, competition, war, terrorist acts, epidemic diseases, environmental factors (including weather systems and other natural phenomena and factors arising from man-made sources), insurance issues and costs, changes in demand due to the seasonal nature of the business, supply issues, changes in laws, regulatory developments or proceedings, pending and future litigation and actions by third parties as well as the factors identified throughout Air Canada's public disclosure file available at www.sedar.com, including Section 18, Risk Factors, of Air Canada’s 2011 Management’s Discussion and Analysis dated February 9, 2012 and Section 14, Risk Factors, of Air Canada’s Third Quarter 2012 Management’s Discussion and Analysis dated November 8, 2012.

Any forward-looking statements contained in this presentation represent Air Canada's expectations as of the date of this presentation (or as of the date they are otherwise stated to be made) and are subject to change after such date. However, Air Canada disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise, except as required under applicable securities regulations.

Air Canada Express – Important Part of N.A. Strategy

Jazz fleet currently at 125 aircraft – 122 aircraft by February 2013

- nine 50-seat CRJ 100s will be replaced with six Dash 8 (Q400s) during the first half of 2013 for a total of 21 Q400 aircraft in the Jazz fleet
- Q400 aircraft are optimized for short-haul operations and deliver fuel efficiency, passenger comfort and lower operating costs than the aircraft they replace
- between February and June 2013, 15 Embraer 175 aircraft to be transferred from Air Canada's mainline to Sky Regional Airlines, Inc. for flying on behalf of Air Canada

Pension Update

- Estimated pension solvency deficit of $4.2B at January 1, 2012, $2.0B higher than solvency deficit at January 1, 2011.

- In light of Air Canada 2009 pension regulations, valuations do not increase required past service cost funding obligations until 2014 – fixed payments of $150, $175 and $225 million in 2011, 2012 and 2013, respectively.

- Collective agreements with major Canadian unions include benefit reductions which are expected to reduce solvency deficit by an estimated $1.1B (subject to regulatory approvals).
  - Additionally, all new employees to join a defined contribution or hybrid DC/DB plan.

- Given that the Air Canada special funding regulations expire in January 2014, we have also entered into discussions with the federal government with respect to an extension of pension deficit funding relief. Air Canada’s Canadian-based unions support the extension request.
Building a Stronger Airline

Leveraging World Class Hubs

- Increasing global connecting traffic via Canada (sixth freedom)
- Toronto Pearson is centre of catchment area with less traffic congestion
- Number of Air Canada international passengers connecting through Toronto Pearson over 160% since 2009
- Continued strength of sixth freedom traffic through Toronto Pearson in Q3 2012 – up 23% from Q3 2011
Continuous Cost Transformation and Improvement

- Surpassed CTP target of annual revenue and cost saving benefits of $530M by the end of the third quarter of 2011

- A number of projects are currently in progress to deliver cost savings during 2012 – these include:
  - improving aircraft turnaround times
  - increasing use of ground power instead of auxiliary power unit on aircraft
  - optimizing use of ground support equipment
  - lowering catering costs and credit card fees

- With closure of Aveos in March 2012, Air Canada has concluded 3rd party agreements at market rates and terms, resulting in both reduced unit costs and increased aircraft availability
Launch of Low-cost Airline in 2013 Aimed at Improving Margins

- Plan is to form an integrated leisure group by combining the activities of Air Canada Vacations with a low-cost leisure airline.

- Service will commence in July 2013 with two Boeing 767-300ER and two Airbus A319 aircraft to be released from Air Canada's mainline fleet.

- Low-cost carrier will provide service to popular holiday destinations in Europe and the Caribbean that are either currently underserved or that do not generate adequate profitability with Air Canada's existing cost structure.

- At launch, the leisure carrier will also assume select Air Canada leisure services and certain new destinations not currently operated by Air Canada.

- The leisure carrier may operate up to 20 Boeing 767-300ER and 30 Airbus A319 aircraft, for a total of 50 aircraft.
Leveraging Opportunities for Revenue Growth

- Paid upgrades
- Baggage fees
- Seat selection fees
- Improved net Aeroplan revenue
  - Reduced Aeroplan frequent flyer accumulation fees to 50% on Tango service for international routes
- Launch of loyalty program for small businesses
  - Loyalty program caters to small and medium-size businesses allowing them to earn rewards and complimentary services
- Introduction of new Revenue Management System (RMS) which is being phased in over the next two years
