FINANCIAL MARKETS

2015 QUEBEC CONFERENCE

Amos Kazzaz,
Vice President, Financial Planning and Analysis

Toronto
June 4, 2015
We connect Canada and the World through people and technology
Air Canada’s public communications may include forward-looking statements within the meaning of applicable securities laws. Such statements may be included in this presentation and may be included in other communications, including filings with regulatory authorities and securities regulators. Forward-looking statements may be based on forecasts of future results and estimates of amounts not yet determinable. These statements may involve, but are not limited to, comments relating to strategies, expectations, planned operations or future actions. Forward-looking statements are identified by the use of terms and phrases such as “anticipate”, “believe”, “could”, “estimate”, “expect”, “intend”, “may”, “plan”, “predict”, “project”, “will”, “would”, and similar terms and phrases, including references to assumptions.

Forward-looking statements, by their nature, are based on assumptions and are subject to important risks and uncertainties. Forecasts or forward-looking predictions or statements cannot be relied upon due to, amongst other things, changing external events and general uncertainties of the business. Actual results may differ materially from results indicated in forward-looking statements due to a number of factors, including without limitation, industry, market, credit and economic conditions, the ability to reduce operating costs and secure financing, energy prices, currency exchange and interest rates, employee and labour relations, competition, pension issues, war, terrorist acts, epidemic diseases, environmental factors (including weather systems and other natural phenomena and factors arising from man-made sources), insurance issues and costs, changes in demand due to the seasonal nature of the business, supply issues, changes in laws, regulatory developments or proceedings, pending and future litigation and actions by third parties as well as the factors identified throughout Air Canada's public disclosure file available at www.sedar.com, including section 18, Risk Factors, of Air Canada’s 2014 Management’s Discussion and Analysis of Results of Operations and Financial Condition dated February 11, 2015.

Any forward-looking statements contained in this presentation represent Air Canada's expectations as of the date of this presentation (or as of the date they are otherwise stated to be made) and are subject to change after such date. However, Air Canada disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise, except as required under applicable securities regulations.
Air Canada is...

...among the 20 largest airlines in the world

...largest provider of scheduled passenger service in Canada with leading share in all markets

...the only international carrier in North America to receive a four-star ranking by Skytrax and the best airline in North America – 5 years running

...focused on revenue generating, cost reduction and international expansion

...one of Canada's top 100 employers – 2 years running

Air Canada's Business Strategy is Focused on Four Key Priorities

1. Revenue Enhancement and Cost Transformation
2. International Growth
3. Customer Engagement
4. Culture Change
REVENUE AND COST INITIATIVES

- Fleet additions / reconfigurations lower Air Canada's overall cost structure and improve the airline’s competitiveness & profitability
- Air Canada rouge allows Air Canada to enhance margins on leisure routes
- New class of service (Premium Economy Class) on mainline and rouge fleets allows for higher average economy cabin fares
- Continued focus on productivity enhancements and process reform through Business Transformation team
Boeing 787s and Higher-Density 777s Provide Significant Cost Advantages

- Five higher-density Boeing 777s operate high-volume, leisure-oriented international routes
- Boeing 787 Dreamliner allows Air Canada to operate existing Boeing 767 routes in a more efficient manner and enables the airline to enter many new international markets made viable by the aircraft's lower operating costs, midsize capacity and longer range
Air Canada Rouge Designed to Position Air Canada Profitably in the Leisure Market

- Lower cost structure allows Air Canada rouge to enhance margins in leisure markets and pursue opportunities in international leisure markets.

- Significantly lower unit cost – Airbus A319 and Boeing 767 CASM reduction of 23% and 30% versus same aircraft in mainline, respectively.

- New routes include Montreal-Venice, Vancouver-Osaka and transfer from mainline of Toronto-Lima for summer 2015.

- New collective agreement with ACPA facilitates the evolution of Air Canada rouge into a stronger leisure carrier with improved fleet renewal flexibility.
IMPROVING PREMIUM REVENUES WITH NEW PREMIUM ECONOMY CLASS

- New class of service on both mainline and Air Canada rouge fleets
- Provides more seating pitch and width than economy class
- Segmented product aimed at higher-end customers seeking to improve comfort and travel experience
- Enhanced travel experience (priority check-in, baggage allowance, on-board meals, bar, etc.)
Air Canada target "fair share" is approximately 1.5%

Meeting this goal would equate to an additional 1.68M incremental passengers per year and over $605M in incremental revenue.

Canadian hubs have excellent geographic positioning and efficient transit facilities versus other global hubs.

Air Canada covers all major markets in the U.S. with multiple frequencies per day.

In 2014, Air Canada transported 1.9M sixth Freedom passengers – sixth freedom traffic has increased 56% since 2010, revenues by 75%.
OTHER OPPORTUNITIES FOR REVENUE GROWTH AND COST REDUCTION

- Concluded an amended and extended capacity purchase agreement with Jazz – expect approximately $550M in financial value over next six years
- Implementing new Revenue Management System (RMS) – expect incremental annual revenues in excess of $100M – effective in Q2 2015
- Growing ancillary revenues through various passenger-related fees, including baggage, paid upgrades, on-board offerings (meals, iPads, Wi-Fi, etc.), preferred seats and seat selection
- Introducing a merchandising tool to customize, differentiate and combine offerings
- Replacing 20 EMBRAER E190s with five larger Airbus narrowbodies and five Boeing 767s – expected CASM reduction of 10%
- Converting Boeing 777-300/200s into more competitive configurations
- Agreement with GTAA reduces CASM for incremental traffic
ENGAGING OUR CUSTOMERS

- Investing in products and services, such as the Dreamliner with newly designed cabins and next generation IFE
- Air Canada Altitude which recognizes and rewards frequent flyers
- Air Canada Corporate Rewards – a powerful online tool to help all sized businesses manage their travel, reduce costs and earn rewards
- Implementing a customer relationship management system to gain valuable customer insights
- Improved on-time performance and reliability and streamlined boarding process
- Improved international connections through major hubs – streamlined in-transit process
- Improved on-board offerings and consistency of service
- Launched enhanced Preferred Seat program
- Opened new Maple Leaf Lounge at London Heathrow’s new T2 – a total of 21 lounges worldwide

New Target: 15% - 18%
Targeting ROIC to Exceed Cost of Capital 2015-2018

- Return is calculated based on adjusted net income, excluding interest expense and implicit interest on operating leases.
- Invested capital includes average Y-O-Y total assets, net of average Y-O-Y non-interest-bearing operating liabilities and the value of capitalized operating leases.

2012 actual: 7.7%
2013 actual: 10.8%
2014 actual: 12.1%
Q1 2015 actual: 15.2%
New Target: 13-16%
MANAGING FINANCIAL LEVERAGE – TARGET OF 2.2 BY 2018

Adjusted Net debt to EBITDAR ratio

- Reflects adjusted net debt to trailing 12-month normalized EBITDAR ratio
Concrete Actions Taken to Reduce and Manage Future Risk Profile

- Based on preliminary estimates, at May 20, 2015, solvency surplus in domestic registered pension plans of $1.2 billion. In May 2015, Air Canada opted out of the 2014 Regulations

- Since 2013, Air Canada received two notch upgrades from Standard & Poor's and two notch upgrades from Moody's

- Implementation of Cape Town Convention (CTC) in Canada provides new and attractive source of aircraft - Enhanced Equipment Trust Certificates (EETCs)

- Fuel – Use call options to manage fuel risk in the short-term - protects against spikes in fuel prices but allows us to participate 100 percent from a declining fuel price

- Foreign exchange – hedge approximately 65 percent of net U.S. dollar exposure on a rolling 18-month basis

- 10-year collective agreement recently concluded with pilots provides greater stability and long-term cost certainty
PENSION TURNAROUND STORY
SIGNIFICANT REALLOCATION OF CAPITAL TO OTHER USES

- **$5.4 billion improvement in pension solvency position over four years**
  - $3.5 billion of net value created on top quartile investment returns
  - $0.9 billion in pension contributions
  - $1 billion in negotiated pension benefit amendments

- **Opt-out of 2014 Regulations in May 2015**
  - Cash flow savings of $110 million in 2015
  - Release of obligations to pay up to $1.1 billion in past service payments over the next six years

- **Risk largely eliminated**
  - 75% of pension liabilities matched with fixed income products
  - Overall risk profile lower by 50%
  - Significant surplus

- **Improved financial flexibility to fund capital expenditure programs, lower debt levels and return value to shareholders**
OUR INVESTMENT PROPOSITION

✓ Strong brand, extensive and powerful network and award-winning products and services

✓ Investing in fleet and products for the future

✓ Leveraging opportunities for revenue growth

✓ Unrelenting on costs and creatively responding to competition

✓ Record financial performance

✓ Engaged employees and results-driven management team

✓ On track to execute strategy and well-positioned for earnings growth
Thank You
